

INFO 4001 THESIS A

Meeting Record

Student Name: Shimiao Sun

Supervisor: Dr Xi Wu

Date/Time: Fri 05/08/2024 3:30pm-4pm

1. Summary of progress from last meeting:

This is the first meeting of this semester.

2. Items discussed during meeting:

1. Frequency and date of meetings: every Friday at 3pm-3:30pm at Room 228 of J12 building.
2. Mode of communication and submission of work: using email and discord for communication and using GitHub for work submission.
3. Introduced and discussed the topic of project. Basically, we are going to use formal language to write scenarios to build abstract model for wireless sensor network(WSN) and then using math and tools such as PAT to verify the properties we made. We will also need to focus on the security, quality and mobility of communication.

3. To do for next meeting:

1. Read and understand what is wireless sensor network(WSN), wireless ad hoc network(WANET) and basic usage of formal language.
2. Do research and know what have been done on this topic.

4. Date of next meeting:

Wed 14/08/2024 3pm-3:30pm
