

INFO 4001 THESIS A

Meeting Record

Student Name: Shimiao Sun

Supervisor: Xi Wu

Date/Time: 14/08/2024 Friday 3-3:30 pm

1. Summary of progress from last meeting:

Did research and had a basic understanding of wireless sensor network and formal language.

2. Items discussed during meeting:

1. Did further discussion on mobile ad hoc network and its subclass flying ad hoc network model. Briefly introduced the principle and help understand what is it and how it works.
2. Discussed what I am supposed to do for this topic again.

3. To do for next meeting:

1. Keep doing research on mobile ad hoc network and formal scenario. Trying to find out the problem I want to work on and doing analysis on the related work based on the problem I choose.
2. Read the references given by supervisor and try to understand the content.
3. Get prepared for the project analysis brief and make a brief project plan for this semester.

4. Date of next meeting:

23/08/2024 Friday 3-3:30pm
