

INFO 4001 THESIS A

Meeting Record

Student Name: Shimiao Sun

Supervisor: Dr Xi Wu

Date/Time: 02/09/2024 Monday 3-4pm

1. Summary of progress from last meeting:

1. Went through a large number of topics in recent five years and chose four interesting papers. Briefly read and understand the purpose of articles and how they designed to solve the problem.
2. Did research on hot topics such as UAV network in IoT, smart city UAV goods delivery and smart home furnitures network.

2. Items discussed during meeting:

1. Discussed interesting topics I chose with supervisor and gave advice on choosing the topic that really attracts me. Determined the topic and research direction for my project.
2. Discussed the difference of qualitative and quantitative results of project.

3. To do for next meeting:

1. Carefully read the reference "Formal Analysis of TSN Scheduler for Real-Time Communications" and find out how to do research with quantitative result output.
2. Keep reading IoT-based UAV network survey and other useful references and think about the challenges of UAV deployment and security.

4. Date of next meeting:

06/09/2024 Friday 3-3:30pm
